

cypress glue lam posts

Cypress glue laminated posts have all the benefits of traditional sawn Cypress posts, with the added dimensional stability that comes with an engineered wood product.

Some of the features and benefits include:

- Naturally Termite Resistant
- Durability Class 1
- Comes from AFS certified forest with full Chain of Custody accreditation
- Exterior water resistant glue line
- Solid laminates (i.e. no finger jointing or butt joints)
- Gun barrel straight
- Guaranteed not to delaminate
- Visually graded minimum F7
- Available as finished size 88x88mm & 115x115mm (other sizes available on request)
- Available in stock lengths of 2.4, 2.7 & 3.0m (other lengths on request)
- 115x115mm come wrapped to disguise lamination
- Dressed with pencil round edges for safe handling
- Recommended for above ground use
- Needs to be sealed either Clear Finish or Painted
- Available primed on request
- Other glue laminated products available on request (e.g step treads, lintels, chamfer, handrail, etc.)

The AFS ensures that trees have been selected under very strict guidelines and removed from the bush in a manner that is least impactful on the remaining flora and fauna.
